

Creative and driven Designer with 14 years of experience in graphic & visual design, user experience, type design, and web development. Possesses extensive knowledge of design for print, web, and software with the technical and soft skills to collaborate cross-functionally effectively.

EXPERIENCE

2016-2025 **Zeitcode - Senior Designer**

- Led design, user experience and visual design for all client projects and pitch work by establishing design direction and facilitating tasks for other team members, resulting in an increase in design production quality
- Developed and maintained software design systems that effectively communicate between design and development
- Achieved successful project delivery and updates through collaboration with clients, stakeholders, leadership, and the development team, which has helped secure future projects
- Responsible for designing and coordinating all internal design projects that have united employees and strengthened client relationships

2013-2016 **Mutual Mobile - Visual Designer**

- Designed great mobile apps by supporting and leading design teams for various client projects and pitch work
- Built and maintained software design specifications for a smooth transition to the development phase
- Worked closely with development and quality assurance teams to communicate design expectations, which resulted in 10% fewer visual bugs

2010-2012 **Kasasa - Web & Graphic Designer**

- Designed print and websites for clients by gathering requirements and understanding the needs and wants of the clients/stakeholders, resulting in work that the clients were excited to use to represent their brand
- Fostered a unified team by engaging with all members during the management, design, and development phases, leading to a pleasant work atmosphere
